WILL BE NO TROUBLE.

Doubtless the enemies of Great Britain would like to see her involved in serious trouble with the United States, says the Pittsburg Times, over the question of the seizure of American supplies bound for the Delagoa bay territory of Portugal, but their hopes will be destined to disappointment. The British government is placed in a very embarrassing position because of this Portuguese territory, through which there is little doubt that supplies are being constantly sent from America and Europe to the Boers. These supplies are, however, presumably shipped to consignees in Portuguese territory, by whom they are reshipped to the Transvaal. The British, however, no matter how well convinced they may be in their own opinion as to the destination of the supplies, will hardly care to act upon a mere presumption and seize the goods of Americans, with whose government they have the best reasons for being upon friendly terms.

The American government will be firm in maintaining the rights of its people, but will not be disposed to be unnecessarily aggressive toward Great Britain. The officials of the latter are no doubt now heartily glad that the "Trent affair" of our civil war was not prosecuted to open hostilities with the United States, as many of the British jingoes of the day desired. They can appreciate, now that they are confronted with the aggravating situation at Delagoa bay, the embarrassment the American government labored under at the time of the seizure of the Confederate emissaries, Mason and Slidell, upon the British steamer Trent, and they will be strongly inclined to imitate President Lincoln's action in that matter and release the supplies.

The small cattle growers are awakening to the iniquity of the proposed enactment to lease the unsold public lands for grazing purposes. Says the Lordsburg Liberal: "The Carlebad Argus has commenced a fight against a proposed act of congress. It is proposed to have congress pass an act providing for the leasing of all the public lands, that are not taken up, for grazing purposes. The Argus figures that if this is done a few big cattle and sheep companies will acquire all the desirable public land and will turn out all the little fellows in the business. The Argus is probably right. The big companies will do this if they can. The Argus protests strongly against this proposed act, and in its protests is backed up by most of the prominent papers of the territories." Protests against the proposed enactment should be prepared all over the cattle growing region and sent on to congress just as quickly as possible.

From the present outlook the people of Arizona need not fear the result of 1900. The mining industry of the territory was never on a more satisfactory basis, with every indication that our section is growing in popular favor as investments are made and the true worth of our mines ascertained. This condition of affairs if more noticeable in Gila county, probably than elsewhere, but cheering news comes from every quarter of our vast mineral field; prosperity is abundant in one only deluge for it; meaningless and insincere platitudes will avail naught—the miner to achieve success must labor unflinchingly. —Globe Belt.

Spain's Greatest Need.

Mr. R. P. Oliva, of Barcelona, Spain spends his winters at Aiken S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters America's greatest Blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed, only 60 cents. Sold by Bisbee Drug Store and Copper Queen Store.

Seldom indeed do the people of Bisbee see such prices and such sacrifice in furniture as B. F. Graham & Co. are making to sell their enormous stock. \$30

## Notice.

## COPPER IS THE METAL.

The Cochise Copper Mining Company, Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to over 34,000,000 pounds during the year 1898, and the net proceeds of such production are reported to have been over \$2,000,000, and it has been said by experienced miners who have been under its employ for years, that the Queen mine now has sufficient ore in sight to keep it in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable, when it is within such close proximity to such a wonderful mine?

The blasts set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at twenty-five c. per share. No application for less than 100 shares will be accepted.

The company reserves the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sale of stock will be expended toward the development of our property and the erection of hoisting works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property. Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives.

L. C. SHATTUCK, Pres.  
J. MUHEIM, Supt. & Treas.  
G. W. HILL, Vice-Pres.
